

Make your synthetic turf look its best!

Synthetic Turf Deep Cleaner.

Field Crewzer[™]

Pioneer's Field Crewzer is a deep cleaner that removes litter and debris while returning infill back into the field.

- A robust, counter-rotating brush lifts surface debris into a primary hopper
- Infill granules are cleverly returned to the surface while debris is shaken into one of two easily-removable collectors at the rear of the machine
- Can be pulled by most golf carts and utility vehicles
- The Field Crewzer lifts up via a linkage for transporting

ingredients matter.[®]

Gawryla Grips[™]

Synthetic turf field lining system. Lining an artificial turf field in preparation for painting lines used to mean puncturing the turf with nails or stakes.

The Gawryla Grip holds firmly without damaging the turf, providing a solid anchor for stringing lines.

Digital Infrared Thermometer

Check the heat of your synthetic turf field for player's safety. The digital infrared thermometer offers laser targeting accuracy, enhanced back-lit LCD display and expanded temperature range of 2°C to 500°C, -4°F to 932°F.
