

ATHLETIC FACILITY CLEANSING SYSTEM

Shokray Blue Cleansing Pellets

- Multi-purpose cleansing pellets produce an ionic action that forms a blanket of long-lasting protection and controls odor caused by bacteria and microorganisms on surface areas
- Effective as a stadium washdown agent to clean seating and other public areas
- One pellet will dissolve in approximately 1000 gallons of water at 70 to 90 PSI
- Alleviates static cling of artificial turf fibers when mixed with water
- Simply spray and rinse the area thoroughly
- Ideal for artificial turf, bleachers, dugouts, locker rooms, snack bar, and equipment areas

Package: 12 per case

IRBWPS-PD5

Deluxe Pellet Applicator

- Designed to apply pelletized wetting agents, surfactants, and adjuvants to turf and ornamentals while connected to an irrigation source
- Comfortable ergonomic handle design has a full-time swivel at the supply end along with a shut-off ball providing maximum control
- Includes 2 nozzles: one aluminum flat spray nozzle and one shower head nozzle to suit any application need
- The nylon pellet container easily twists on with the O-ring keeping your applicator water tight, precise, and durable for many years

IRBWPS-AD2

Standard Pellet Applicator

- Designed to apply pelletized wetting agents, surfactants, and adjuvants to turf and ornamentals while connected to an irrigation source
- Includes one aluminum flat spray nozzle and a thumb valve shutoff to apply pelletized materials to turf and ornamentals
- The nylon pellet container easily twists on with the O-ring keeping your applicator water tight, precise, and durable for many years
