

iPro™ Markers

A practical solution for marking or setting lines

- A cost-effective way to mark your playing surface
- Eliminates the need to re-measure natural grass fields prior to painting
- Perfect for football, soccer, lacrosse, field hockey, rugby, baseball/softball, track and field
- Use to mark sprinkler heads, cables, sensors and other potential field hazards
- Also great for marking out building or camp sites
- Frequently used on golf courses to mark hazards or distances
- Can be left in the ground permanently or moved when needed
- Markers are simply knocked or screwed into the ground
- Comes with three different installation tools
- Highly visible synthetic turf tufts
- Fibers available in blue, white, yellow, orange, and red
