

HOW TO 101:

PAINTING A CIRCLE WITH AN AIRLESS STRIPER

1

Find center spot of circle.

2

Using a stake and tape measure, extend to the radius of your circle.
Radius will vary by sport.

3

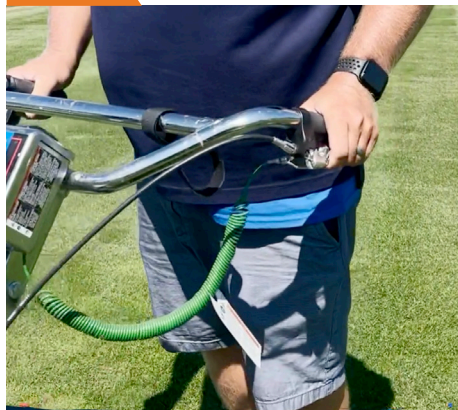

Using aerosol paint, dot out the full path of your circle.

4a

Method 1: Lock your front wheel and paint along the outer edge, using the dots as a reference.

4b

Method 2: Release handle on left-side of machine to unlock wheel and maneuver around the circle.

Use method 1 or 2 to trace out your circle dot pattern and complete your circle.
