

HOW TO 101:

STRIPING A FIELD WITH AN AIRLESS STRIPER

1

Line your target area using string and stakes.
**Gawryla Grip for synthetic turf.*

Gawryla Grip

2

Start your engine.

3

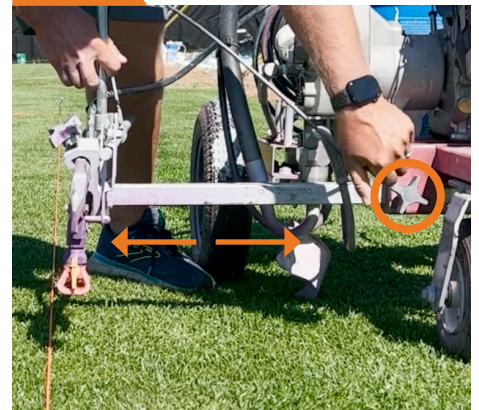

Prime the machine.

4

Lock gun into place.

5

Loosen the adjustment knob to set length of gun arm. Tighten when done.

6

Loosen the adjustment knob to set gun height. Tighten when done.

7

Be sure to test a 4 inch width for athletic field marking.

8

Choose between: Outside of the string, middle of the string or inside of the string.
