

Titan T.G.

Available in limited states only, call for details

- One-step disinfectant, Bactericidal, Fungicide, Virucide, Staphyldicidal
- A multi-purpose, neutral pH, germicidal agent
- Effective for use against SARS Associated Coronavirus
- Recommended for use in schools, colleges, locker rooms, and exercise facilities
- Kills harmful microbes that can cause disease
- Disinfects, cleans and deodorizes nonporous, inanimate surfaces such as floors, walls, glazed porcelain, metal, and plastic surfaces (such as polypropylene, polystyrene, etc.)
- Dilution: (1:64) 2 ounces per gallon of water
- Applied with a cloth, mop, sponge, coarse spray, or by soaking
- For sprayer applications, apply 6-8 inches from the surface
- Let solution remain on surface for a minimum of 10 minutes
- Also suitable for use in water damage restoration situations against odor causing bacteria in carpets and carpet cushions

Large area applications

- Use approximately 4 gallons per 250-gallon water tank
- Apply approximately 1 gal per 250-300 sq. ft. – this will vary depending on surface
- Do not apply when temperatures are high
- Be sure that all surfaces are dry prior to use
- EPA registered, neutral pH for player safety.
EPA Registration # 47371-131-892

Effective Against

Bacteria

- Staphylococcus aureus (Staph)
- Staphylococcus aureus-Meth-icillin Resistant (MRSA)
- Staphylococcus aureus-Vancomycin Intermediate Resistant (VISA)
- Escherichia coli
- Enterococcus fae-calis-Vancomycin Resistant (VRE)
- Streptococcus pyogenes (Strep)

Viruses

- Hepatitis B Virus (HBV)
- Hepatitis C Virus (HCV)
- Herpes Simplex Type 1 & 2
- HIV-1 (AIDS virus)
- Influenza A
- Respiratory Syncytial Virus (RSV)
- SARS Associated Coronavirus
- Rubella
- Vaccinia

Fungi

- Trichophyton mentagrophytes (Athlete's Foot Fungus)
