

Supplied by:

COATED TURF SEED

- 052.0026 | Rock-It Kentucky Blue Grass
- 052.0076 | Double Time GLS Perennial Ryegrass 
- 052.0077 | Panther GLS Perennial Ryegrass 
- 052.0054 | Falcon H20 Tall Fescue 
- 052.0048 | Finelawn H20 Tall Fescue 

Features and Benefits

- Encapsulates each seed in a carefully formulated mix of minerals and selected nutrients
- Specifically Formulated Micro Nutrient Package Fe, Zn, and Mg
- Increases seed and seedling survival
- Establishes a microenvironment for stimulating vigorous growth in young seedlings
- Achieves better seed to soil contact to aid germination
- Hygroscopic nature of the coating pulls and holds moisture to the seed aiding germination
- Coating disguises seed for less bird predation
- Colorant on the seed improves monitoring of area seeded and seeding rate
- Increases stand and survival under adverse conditions

Coated Seed Weight Benefits

- Makes seed larger and easier to handle and distribute evenly
- Less puddling of seed – seed stays put in over watering conditions
- Penetrates stubble or thatch for better seed to soil contact

Hydroloc Moisture Control Enhancement Benefits

- Stores and releases moisture for the young seedling
- Enhances germination rate in low moisture conditions
- Reduced moisture stress in early seedling growth
- Increases water uptake 3X

Turfgrass Water Conservation Alliance qualified.
TWCA is a non-profit organization that recognizes and promotes plants that can thrive using limited amounts of water, helping to preserve our water resources.
