ingredients matter.

Match Play™ Turf Colorant

Introducing an array of turf colorants made specifically for sport fields and golf courses as an alternative to overseeding with perennial ryegrass. Our colors were developed through a combination of academic research and practical application, creating consistent colors that will not fade to blue.

Match Play™ Temporary

- Turf dye for those who overseed with perennial ryegrass
- Temporary green color to bridge the gap during the grass transition period
- Concentrate available in 1 gallon pail

SPECIFICATIONS

For use on	Natural Grass
Applied by	Boom Sprayer
Dilution ratio	<p>Match Play Turf Colorant Rates.</p> <p>Dormant Applications:</p> <ul style="list-style-type: none"> • 1 gallon of Match Play with 7-9 gallons of water <p>Non-Dormant Applications:</p> <ul style="list-style-type: none"> • 1 gallon of Match Play with 15-20 gallons of water <p>Divot Mix:</p> <ul style="list-style-type: none"> • 6 ounces of Match Play with 6 ounces of water into 100 pounds of divot mix.

**High humidity & cool temperatures will result in longer dry times*

Consistent Turf Color

Match Play colors allow you to choose consistent colors to maintain contrast between greens, collars, tees and fairways.

Water Conservation

Match Play colorized turf requires far less water than overseeded perennial ryegrass.

No Transition Problems

Bermuda grass will green up sooner and more consistently in the spring without competition from perennial ryegrass and poa trivialis.

Sustain a Stronger Strand

Overseeding over long periods of time can create a weaker strand of bermuda grass.

Lower Maintenance Costs

Eliminate direct cost of seed as well as the indirect maintenance costs of mowing, fertilizing, watering and applying herbicides and pesticides.
