

## Turf Chief

- An affordable solution to sweeping and maintaining synthetic turf
- Efficiently collects organic and environmental debris on synthetic turf surfaces, such as: leaves, sticks, pine needles, stones, goose droppings, athletic tape and more
- Helps stand up turf fibers, resulting in an improved playing surface
- Simply unroll, hook up and drive to use. Rolls up easily for storage
- A tandem bar allows two sweepers to be teamed up side-by-side to cover large areas twice as fast.
- A football field can be swept in approximately 15 minutes (7 minutes with tandem) with an average speed of 7.5 mph
- Have a synthetic turf baseball field? Sweep it in 34 minutes (17 minutes with tandem) when traveling at an average speed of 7.5 mph
